## Nessy Learning Programs Saturday 26<sup>th</sup> October 2019 Workshops

Nessy programs are developed in collaboration with specialist teachers and the world's leading academic researchers. Their programs are research-proven and designed to follow the Orton- Gillingham principles of structured, multi-sensory learning. <https://www.nessy.com>

### For Parents

---

Struggling with reading (and spelling) at a young age can leave children with low confidence and feeling frustrated in the classroom. Students with learning difficulties such as dyslexia require well-designed targeted, sequential and engaging instruction which, if introduced at the right age, can make a significant difference to the academic outcomes achieved. Nessy has been making dyslexia-friendly software for 30 years and is dedicated to promoting early identification to ensure that children get the help they need. In this session, parents can see the games-based approach to learning that has helped children across the globe as they learn to read and spell. Participants will be able to ask any questions they may have about Nessy's range of programs and how they can help their child (or children).

**Cost:** \$20 non-member  
\$10 member

**Workshop Date:** 26<sup>th</sup> October 2019 Ref: 261019am

**Time:** 9am – 11am **Registration** from 8.30am

**Venue:** SPELD SA 298 Portrush Road Kensington 5068

### For Teachers

---

In this session, Nessy Learning will be showcasing their range of dyslexia friendly software which has been designed to support students with learning difficulties as they learn to read, spell and write utilising a games-based approach. The programs incorporate current research evidence and have been carefully designed to provide students with the opportunity to practise and consolidate essential skills in a fun and interactive way. Nessy's multi-sensory, phonics-based programs have been aiding students since 1999 and teachers will be able to see the entire range of programs in action. Participants will find out how these resources can help students achieve stronger results at a faster rate and will be able to access and trial the software during the session.

**Cost:** \$20 non-member  
\$10 member

**Workshop Date:** 26<sup>th</sup> October 2019 Ref: 261019pm

**Time:** 12:30pm – 2:30pm **Registration** from 12:00pm

**Venue:** SPELD SA 298 Portrush Road Kensington 5068
